ABOUT US

A leading supplier of high-quality, world-class premium FIBC solutions.

Gulf Bags Company (GBC) is a specialized manufacturer and reliable expert supplier in FIBCs (Jumbo Bags), offering high-performance bulk packaging solutions for industries such as chemicals, minerals, construction, agriculture, food, plastics and fertilizers. With a strong commitment to quality, reliability, and innovation, GBC uses advanced manufacturing technologies and premium polypropylene materials to produce durable products that meet international standards. Our solutions are engineered to withstand demanding storage and transportation conditions while ensuring safety and efficiency. We provide a wide range of FIBCs (Jumbo Bags) in various sizes, designs, and specifications, including standard, conductive, and anti-static options. In addition, we offer customized printing and tailored solutions to meet specific customer needs. At GBC, we are dedicated to delivering cost-effective, reusable, and sustainable packaging solutions while fostering long-term partnerships with our clients.

“ Vision

To be a globally recognized leader in FIBC solutions, known for excellence in quality, innovation, and sustainability. We strive to set new industry benchmarks through advanced manufacturing technologies, continuous improvement, and a strong focus on customer satisfaction. Our vision is to deliver reliable, high-performance packaging solutions that meet evolving global demands while building lasting partnerships and contributing to a more efficient and sustainable future.

“ Mission

- To manufacture world-class **FIBC** solutions that meet international quality standards.
- To drive continuous innovation through advanced technology and processes.
- To deliver efficient, reliable, and tailored packaging solutions.
- To support sustainability with durable and eco-conscious products.
- To foster lasting partnerships through trust, service excellence, and customer focus.

Key Focus Areas 2026 :

Expansion of FIBC & PP Woven Bag production capacity.

Customers served across key industries.

Product quality, safety, and performance enhancement.
